

STARLINK POLE ADAPTOR

GEN3 V4 Dish

STARBKT

The Antiference Starlink pole adaptor is designed for use with the Starlink GEN 3 V4 dish and features a 20° angle for optimum performance. It is manufactured with a fibre glass reinforced polyamide material making it extra strong and capable of withstanding extreme environments.

The mount is supplied with an adaptor to allow it to be mounted on a pole or bracket from 32mm to 50mm. Mounting is easy with the 'click in' tab design and it is supplied with 2 stainless steel bolts to lock into the brass bushings which are moulded into the collar.
